MANUFACTURER OF
LAGER BEER,
MARKET STREET BREWERY,
Cor. Upper Tenth, NEW ALBANY, IND.

EXPLANATORY.

The following, carefully compiled *Interest Tables* are so arranged, that the interest on all sums therein mentioned, as also on *intermediate* and *larger* sums, from one day to one year and over, at any rate from $\frac{1}{2}$ to 10 per cent., can be seen at a glance. Each sum has a separate page; the first horizontal line is the day and month line; D. signifies *days*, M. *months*, and Yr. *years*. The first perpendicular line gives the different rates of interest. Suppose, the interest of \$60.00 at 8 per cent. for 15 days is wanted.—Turn to the \$60.00 page, run down the first line to 8 per cent., then across to the 15 day line, where 20 cents is found, the interest for 15 days. Or suppose, the interest of \$160.00 at 10 per cent. for 4 months is wanted. Take first the \$100.00 page, run down the first line to 10 per cent., then across to the 4 months line, where \$3.33 is found; then turn to the \$60.00 page, and on the same line stands \$2.00; adding the two sums gives \$5.33, the exact amount of interest for the time given. To get the interest of \$800.00 at 6 per cent. for 1 year, 10 months and 24 days, turn to the \$800.00 page, which shows the amount for 1 year to be \$48.00, for 10 months \$40.00, for 20 days \$2.67, and for 4 days 53 cents, which together make \$91.20.

The method of using these Tables, as can be readily seen, is simple and easy, and will save time and labor.

CHICAGO, January 4th, 1881.

THE PUBLISHERS.

Forerindring.

Efterfølgende, med største Omhu udregnede Rentetabeller er saaledes sammentatte, at man med største Lethed kan udfinde Renten paa saavel de givne som de mellem disse liggende højere eller lavere Summer for hvilken som helst Tid, fra en Dag til et Aar, og til hvilken som helst Rentefod fra $\frac{1}{2}$ til 10 Procent. Enhver Sum optager en særskilt Side; den øverste Linje tværs over Siden angiver Dage og Maanedene (de her anvendte Forkortelser er: D. = Dag, M. = Maaned og Yr. = Aar), mens den første Linje nedad Siden til venstre angiver de førstjellige Rentefødder. Hvis man nu f. Ex. vil vide, hvormeget Renten paa 60 Dollars i 15 Dage til 8 Procent beløber sig til, tager man Siden for 60 Dollars og følger Linjen for 8 Procent til højre, til man kommer til Linjen for 15 Dage, hvor man vil finde 20 Cents angivet som Renten af den angivne Sum for denne Tid. Vil man vide, hvor stor Rente \$160.00 giver til 10 Procent i 4 Maaned, spørger man først paa \$100.—Siden Linjen for 10 Procent og følger denne som ovenfor angivet, til den krydser Linjen for 4 Maaned, hvor man finder Beløbet af Renten angivet med \$3.33; derpaa spørger man paa \$60.—Siden paa samme Maade, hvor man vil finde \$2.00 angivet som Renten for 4 Maaned; denne Sum, tillagt \$3.33, udgjør \$5.33, som altsaa er Renten af \$160.00 for 4 Maaned til 10 Procent. Vil man beregne Renten af \$800.00 i 1 Aar, 10 Maaned og 24 Dage til 6 Procent, saa staar man først op \$800.—Siden, hvor man paa den ovenfor angivne Maade vil finde \$48.00 for et Aar, \$40.00 for 10 Maaned, \$2.67 for 20 Dage og 53 Cents for 4 Dage, hvilket sammenlagt udgjør \$91.20 som det hele Rentebeløb. — Som man heraf ser, er disse Tabeller meget lette at anvende, og vil spare baade Tid og Møje.

Chicago, 4. Januar 1881.

15 DOLLARS AT $\frac{1}{2}$, 1, 2, 3, 4, 5, 6, 7, 8, 9 AND 10 PER CENT. INTEREST.

LOUISVILLE HOTEL Louisville, Ky., Philip Judge, Manager.
 Rates \$3.00 & \$3.50 per Day

Absolutely Safe.

The LOUISVILLE BANKING COMPANY is just now erecting, at great cost, on the N. E. cor. of Fifth and Market Streets, a

SAFETY VAULT.

which it is believed will be

ABSOLUTELY SAFE.

All persons interested in such works are invited to inspect it, both during its erection and after it is completed.

Especially is attention called to it from Bankers, Trustees, Executors, Administrators, Judges and Clerks of Courts, and all others who are unwilling to take risks; but who are determined to keep safely their

WILLS,
BONDS,
CERTIFICATES OF STOCKS,
CONTRACTS,
INSURANCE POLICIES,
DEEDS,
LETTERS.
OR OTHER VALUABLE PAPERS.

This vault will contain about one thousand small safes for rent from ten to thirty-five dollars per year. The renters of these safes will carry their own keys, and none but themselves or such other persons as they designate can enter.

(SEE ON OTHER SIDE OF THIS LEAF.)

NOTICE.

Louisville, June 20, 1833.

On, or about the 24th of December next, the LOUISVILLE BANKING COMPANY will remove from the building it has occupied for more than sixteen years to the building now being prepared for it on the N. E. corner of Market and Fifth Streets.

On the 2d day of January it will also increase its capital and surplus by sales of stock to its present stockholders at the price of two hundred dollars for a share of one hundred dollars, thereby giving it a working capital of over half a million dollars. With this increase of working capital the LOUISVILLE BANKING COMPANY seeks additional correspondents, and solicits the accounts of Banks, Manufacturers and others.

The LOUISVILLE BANKING COMPANY is perhaps the only incorporated bank in the State of Kentucky that deals directly with Europe. It buys and sells Sterling Exchange, and issues letters of credit under which merchants can buy goods in Europe although unknown there.

The LOUISVILLE BANKING COMPANY desires to be useful to all classes, and therefore invites business from all. Country merchants in towns where there are no banks would doubtless realize convenience as well as direct and indirect benefits from opening accounts with the LOUISVILLE BANKING COMPANY.

W. J. DUNCAN, Cashier.

THEODORE HARRIS, President.

 Smith St. East Jackson, Jackson, Tenn.

LOUISVILLE HOTEL Louisville, Ky., Philip Judge, Manager.
 Rates \$3.00 & \$3.50 per Day

Greenback Counterfeit.

1's. On upper left, portrait of Chase. The portrait is coarse and dark; the shading of letters scratchy and blurred. In the pink representation of the seal of the Treasury Department (in lower left center) in the counterfeit, the abbreviation SEPTENT spelt SEPTENI.

2's. A poor counterfeit. Engraving very coarse, especially the head of Hamilton. Shading of the words "United States" in large letters, and engraving of "National Bank Note Company" in lower border of face of note poorly done.

5's. An attempt has been made to imitate the fibre paper by printing the lines, but this can readily be detected. Engraving of head of Jackson and vignette in center of note poorly done.

10's. There is no **PERIOD** after the word "TREASURY" at the bottom of the note and after the date. Under the left wing of the eagle the genuine has four distinct rows of feathers, while in the counterfeit the rows of feathers are undefined.

20's. Coarse engraving. The two bars of the letter H, in the word THE under the female figure are not connected.

50's. Are stiff and oily, and darker than the genuine. The paper of the genuine note has silk threads wove into it; which the counterfeit has not.

100's. On the back of the note, in the scroll-work on both sides of the circle, occurs repeatedly the figures 100. Mark the difference in the position of the figures:

In Genuine.		In Counterfeit.	
Left hand,	Right hand,	Left hand,	Right hand,
001	100	100	001

500's. Very dangerous. Ears of John Q. Adams defective.

1000's. So well executed that it is hard for experts to detect the counterfeits.

Counterfeit Silver.

The Silver **TRADE DOLLAR** and **HALF DOLLAR** issue of 1875 and 1876 are easily detected, being made of lead; have an **UNNATURAL BRIGHTNESS** and **SOAPY** appearance. A well-made **DIME**, by its tinkle hue and sharp jingle, may be easily detected. New and dangerous counterfeit **DOLLARS, HALVES** and **QUARTERS** have made their appearance and are apt to deceive, as there is glass in their composition. By striking the coin on a stone or other hard substance, you destroy the sound.

Quick Method for Calculating Interest.

A SIMPLE RULE FOR ACCURATELY COMPUTING INTEREST AT ANY GIVEN PER CENT. FOR ANY LENGTH OF TIME.

Multiply the *principal* (amount of money at interest) by the *time reduced to days*; then divide this *product* by the *quotient* obtained by dividing 360 (the number of days in the interest year) by the *per cent.* of interest, and the *quotient thus obtained* will be the required interest.

ILLUSTRATION.

Require the interest of \$462.50 for one month and eighteen days at 6 per cent. An interest month is 30 days; one month and eighteen days equal 48 days. \$462.50 multiplied by .48 gives \$222.0000; 360 divided by 6 (the per cent. of interest) gives 60, and \$222.0000 divided by 60 will give you the exact interest, which is \$3.70. If the rate of interest in the above example were 12 per cent. we would divide the \$222.0000 by 30 (because 360 divided by 12 gives 30); if 4 per cent., we would divide by 90; if 8 per cent., by 45; and in like manner for any other per cent.

Solution.	
	\$462.50
	.48
	—
	370000
6)360	185000
	—
60	\$222.0000 (\$3.70
	180
	—
	420
